

Vaccination Policy

The University of Saint Mary follows the Center of Disease Control and Prevention's recommendation for immunizations. Specific requirements for vaccinations are published on our website under the Campus Life tab, medical forms, or on the Medical Forms page of the University of Saint Mary website: <https://www.stmary.edu/medical-forms>. The immunization form provided or a copy of a health care provider immunization record and the Tuberculosis Screening Questionnaire are required for all new students. These records must be on file before or immediately upon arrival to campus. If a student fails to submit either of these forms, a fine may be imposed or a hold placed on their student account as well as residents will not be allowed to move in to the residence halls and/or athletes will not be allowed to participate in practice.
